# Leading UK manufacturer and distributor of Defence Standard Tube

APT manufactures tubes for many leading naval, defence and commercial OEMs to a number of defence industry standards including: DEF-STAN, NES, DGS, MIL-T.

As the only UK manufacturer of non-ferrous defence standard tube with over 30 years of industry experience, we pride ourselves in the material supplied into mission critical applications.

The below table gives our standard range of defence standard tubing – although we are able to supply to a range of worldwide military specifications and would be happy to offer a quotation for any specific requirements you may have.

## Our Defence Standard Tube range includes:
